

Paperback Re-issue

Originally published in 1990, this book presents an authoritative review on the state of knowledge on the biology of the red algae. Written by a group of twenty-six internationally renowned experts, the eighteen chapters of *Biology of the Red Algae* range from molecular and cellular to biochemical, physiological, organismal, and ecological aspects of this important group of algae. Together they will be of interest for students, researchers, and teachers concerned with aquatic biology, phycology, limnology, oceanography, and plant evolution.
