Originally published during the early part of the twentieth century, the *Cambridge Manuals of Science and Literature* were designed to provide concise introductions to a broad range of topics. They were written by experts for the general reader and combined a comprehensive approach to knowledge with an emphasis on accessibility.

Plant-Animals by Frederick Keeble was first published in 1910. The volume presents an account of the nature and behaviour of *Convoluta roscoffensis* and *Convoluta paradoxa*, two types of marine worm.
