

DYNAMIC visual stimulation on every page does more than illustrate . . . it teaches, engages, and inspires

No other author team will get you as engaged and interested in biology's connections to real life like Starr/Evers/Starr. Clear and engaging writing, trend-setting art, and unparalleled media integration—*Biology: Concepts and Applications, Eighth Edition*, is the fascinating text that highlights the connections between biology and real life.

These study tools can help you succeed in your course

CENGAGENOW Study more efficiently to get the grade you want. Online resources such as CengageNOW™ with chapter pre- and post-tests give you a Personalized Study Plan.

Premium eBook

Printed Access Card 978-0-8400-4849-3

This complete online version of the text is integrated with multimedia resources and special study features, providing the motivation that so many students need to study and the interactivity they need to learn. New to this edition are pop-up tutors, which help explain key topics with short video explanations.

Now that you've bought the textbook . . .

Get the best grade in the shortest time possible!
