Scientific Integrity: Text and Cases in Responsible Conduct of Research, 3rd Edition

Author: Francis L. Macrina, Virginia Commonwealth University

Scientific Integrity: Text and Cases in Responsible Conduct of Research, 3rd Edition, presents an important revision of a best-selling text in the expanding field of training in the responsible conduct of research. Retaining the format and user-friendly design of previous editions, this timely revision delivers updates to all existing chapters, including the addition or removal of case studies for maximum currency. New to the third edition are chapter discussion questions intended to stimulate critical thought and engage students in the learning process.

Clinical Laboratory Management

Volume Editor: Lynne Shore Garcia, LSG and Associates

Clinical Laboratory Management is a comprehensive volume presenting authoritative information on the management challenges facing today's clinical laboratories. Written by practicing laboratorians and edited by seasoned professionals, this publication details the core requirements for effective laboratory management, including personnel management, communication, data management, point-of-care testing, test management, selection and implementation of tests and instruments, safety and emergency preparedness, and regulatory requirements.

Laboratory Notebook, Research Edition

Prepared by: Macademix, Ontario, Canada

The Research Laboratory Notebook was designed by microbiologists for use in a research or government laboratory. Less expensive than comparable dedicated notebooks, the low cost ensures that all labs can make use of this important resource. The notebook is hardbound and permanently sewn for durability and features consecutively numbered pages. Lines are numbered to facilitate cross-referencing and each page has spaces for a title, researcher name, witness signatures, and dates.

The *Laboratory Notebook* is also available in a Student Edition.
