

Green Gene Technology

Volume Editors A. Fiechter · C. Sautter

- | | |
|---|---|
| A. Einsele | The Gap between Science and Perception: The Case of Plant Biotechnology in Europe |
| A. Schrell · H. Bauser
H. Brunner | Biotechnology Patenting Policy in the European Union – as Exemplified by the Development in Germany |
| M. Leisola | Bioscience, Bioinnovations and Bioethics |
| M.P. Oeschger · C.E. Silva | Genetically Modified Organisms in the United States: Implementation, Concerns, and Public Perception |
| P. Aerni | Agricultural Biotechnology and its Contribution to the Global Knowledge Economy |
| T. Schlaich · B. Urbaniak
M.-L. Plissonnier · N. Malgras
C. Sautter | Exploration and Swiss Field-Testing of a Viral Gene for Specific Quantitative Resistance Against Smuts and Bunts in Wheat |
| C. Gessler · A. Patocchi | Recombinant DNA Technology in Apple |
| J.B. van Beilen · Y. Poirier | Prospects for Biopolymer Production in Plants |
| F. Kessler · P.-A. Vidi | Plastoglobule Lipid Bodies: their Functions in Chloroplasts and their Potential for Applications |
| F. Felber · G. Kozłowski
N. Arrigo · R. Guadagnuolo | Genetic and Ecological Consequences of Transgene Flow to the Wild Flora |
| F. Widmer | Assessing Effects of Transgenic Crops on Soil Microbial Communities |
| O. Sanvido · J. Romeis
F. Bigler | Ecological Impacts of Genetically Modified Crops: Ten Years of Field Research and Commercial Cultivation |
